

I am an avid listener of KLOVE radio. This radio station provides me with a radio station, free of advertisements, playing positive, uplifting and encouraging music. This station has over 300,000 listeners nationwide and provides an alternative to the commercial radio stations available in my community. Being a parent, I fear having commercial radio stations on at any time because of the subject matter, language and stories broadcast. If you allow the LPFM stations to take priority over the current FM translator service, you will be doing a huge disservice to thousands of communities across the country.

Please do not allow this to happen. Continue to allow the quality FM stations such as KLOVE to broadcast without the threat of being replaced by the LPFM stations.

Thank you for listening.
